SPENDS \$1,500,000.

Western Pacific Railroad Company Buys Right of Way Between Oakland and Livermore.

has taken another step toward the con summation of its plans. This consists of summation of its plans. This consists of the recording in Alameda county of forty deeds of rights of way purchased between Oakland and Livermore. These deeds represent property whose aggregate value approximates \$1,500,000. They include, of course, the parcels of land required to secure the right of way through the city of Oakland from the eastern boundary to tide water on the harboy front at the foot of Union and Magnolia streets, whence a ferry service with San Francisco will be established.

The recording of these deeds discloses the route which the new railroad will adopt ieross Alameda county. It will extend from Oakland to Livermore in nearly a straight line, catting through the Contra Costa range at Hayward's lass, and reaching the latter city by the way of the town of Dublin. It will items tap one of the most fertile pections of the county, which, up to date has been sidetracked by all the railroads. The next stage of development will doubtless be the grading of the routibed along the route defined by the right of way deeds. A small section of the line has already been graded in East Cakiand. This was done to save the franchises obtained from the city of Oakland. Active construction will be begun, it is understood, as soon as rails, which are reported to be on the way, reach here.—San Francisco Chronicle. The recording of these deeds disclose

San Pedro Work.

San Pedro Work.

Work on the San Pedro is procressing rapidly. The rails have been laid nearly to the Kiernan ranch. Work in the big out has been stopped on account of a breakage in the steam showel and a tenjourny track built ground. The grade is rapidly nearing completion as far down as Moanah, and it is expected Blat the rails will be laid that for by May ist. Some of the contractors are figuring on contracts beyond Moanah, and it is probable that a number will more on in a short line. Reports from the other and of the road are to the effect that good progress is being made. is being made.

Burlington Double-Tracking.

Burlington Double-Tracking.

The Burlington is preparing to spend a good sum on its track between Derver and Chicago this year. A considerable amount has been set aside, it is said to build a double track. A double track is already laid between Chicago and Red Oak Ia. The engines used between Omaha and Chicago are among the largost that have ever been used on American railronds, while those between Denver and Omaha are smaller. But with some new track and heavier rails, mostly nine-ty-pound steel, it will be possible to use the giant engines from Omaha to Denver.

Railroad Notes. Vice-President W. H. Bancroft of the Union Pacific and Short Line is expected from Omaha early next week. G. W. Fitzgerald, Rio Grande agent at Butts, was in the city yesterday. He re-ported Butte in much better condition from a business standpoint, and said the effects of the strike had disappeared. General Passenger Agent O. E. Burley and J. B. Durham, rate clerk of the Short Line, have gone to St. Louis to attend the meeting of the Transcontinental Passenger association. At this meeting the rates for the St. Louis exposition will be lixed and several other Important questions taken up.

AT POINT OF BAYONET.

Sensational Story Regarding the Importation of Mexican Dollars by Manila Bankers.

Manila, Jan. 22.-Manager Jours of he Hong Kong and Shanghai bank, luring the public discussion now going on, declared that prior to the passage of the supplementary currency act, the banks had a letter from Gen. Merritt upon the strength of which the importation of Mexican dollars was resumed after twenty years' prohibition; that the importation of this coin was not voluntary, he said, upon the part of the banks, but was forced upon them by the military authorities practically at the point of the bayonet. American soldiers entered the banks, demanding local currency for gold, some even going to the length of enforcing their demands with at the muzzle of a revolver. There were 23,00 troops landed within three months, to pay whom the Quarternaster and Paymaeter drew letters of credit for half a million sterling, which Jours on his part found himself unable to convert into coin and consequently closed the bank. Gen. Greene on, declared that prior to the passage of unable to convert into coin, and consequently closed the bank. Gen. Greene then issued an order that unless the bank opened and changed these drafts into money for the troops he would place Jours under guard, and threatened to lock him up. The discussion will be continued. continued.

BONDS FOR \$10,000,000

Utah Light & Railway Company's Rad al Step.

WILL PAY OFF OLD CLAIMS

Will Install a 1000-Horse Pewer Steam Plant.

Board of Directors of the New Company Determined to Catch Up With the Times.

The board of directors of the Utah Light and Railway company met yesterday morning and transacted several items of business. Among them was the authorization of an expenditure of \$150,000 for the payment of the outstanding claims of the two old companies, such as notes, equipment, etc. The action of the board at a previous meeting in providing for an issue of \$10,000,000 in first mortgage, 5 per cent thirty year bonds, for taking up the old companies, was omitted from the minutes of that meeting and was reenacted at the meeting yesterday.

The big generator-motor in the rear of The Tribune office was reported in working shape, tests having been made and it was put into operation yesterday afternoon. It is capable of running three-fourths of the entire car system for a short time if necessary, but will be run at its normal capacity only un-

less there is trouble.

The manager was authorized to negotiate for the installation of a 1000-horse-power plant to take part of the work of the street car system.

CANNOT MEET CLAIMS.

The Western Pacific Railroad company | Nebraska Insurance Order Placed in Hands of Receiver by Order of Court.

> Lincoln, Neb., Jan. 22-Chief Justice Holcomb of the Nebraska Supreme court today granted the request of Deputy State Auditor Pierce for a temporary receiver for the Bankers' Union of the World, an insurance order, with headquarters in Omaha, and Sheriff Powers of Omaha was appointed. The deputy auditor alleges that the order is insolvent, that all the liabilities have not been reported, that the amount due policy-holders and unpaid is \$50,000 and that the assets are only \$2437. E. C. Spinney of Omaha is president of the union and his wife is vice-president.

Omaha, Neb., Jan. 22.—The Bankers Union of the World was organized five years ago by Dr. E. C. Spinney, who has been its president since the charter was granted Judge E. P. Holmes of Lincoin is vice-president, Elmer H. Packard secretary and M. T. Swartz banker. The company has been doing business in twenty-five States, and has in force about \$25,000,000 of insurance. Its gross receipts for 1893, according to a statement just issued, were \$15,287, and the claims paid during the same period amounted to \$52,000.

President Spinney stated that the re-President Spinney stated that the re-celvership came as an entire surprise to him, although he admitted that there had been some difficulty between the State Auditors office and the company as a result, he said, of his union declin-ing to pay certain alleged excessive charges for examination.

OLD BOARD STILL LIVES.

Mayor Morris's Board of Public Works Has Not Yet Qualified.

Notwithstanding that the members of the old Board of Public Works have tendered their resignations they held a meeting yesterday and approved a number of bills. There has been a question as to whether the old board could hold a meeting since their resignation and the appointment of the new members. This point was raised by Mr. Kelsey yesterday and the City Attorney was requested to give an opinion on the matter. Assistant City Attorney Brammel held that as long as the new appointees had not qualified as the new appointees had not qualified the old members were still in office. The members were all present with the exception of Mr. Empey. W. H. Wilkins, the rew clerk appointed by City Recorder Critchlow to take the place of Fred T. Kegler, kept the proceedings of the meeting. Besides the approval of some bills all other pending matters were referred to the incoming board. Chairman Clawson appointed Mr. Kelsey and Mr. Morsock as a committee to approve the minutes of the last meeting of the board. The matter of returning the checks of Kennedy & Co., which were submitted with their hads for sewer and watermain extensions, bids for sewer and watermain extension was not taken up
